economics letters

Category index of volume 59

C Mathematical and Quantitative Methods

M. Martin, Quota games and stability set of order *d* (C7) 145
P. Bearse, J. Canals and P. Rilstone, Consistent standard errors for semiparametric duration models with unobserved heterogeneity (C10)153
C. Schluter, Statistical inference with mobility indices (C12)157
L.G. Godfrey and M.R. Veall, Bootstrap-based critical values for tests of common factor restrictions (C15) 1
A.P. Blake and G. Camba-Mendez, Filtered least squares and measurement error (C15)163
K. So Im, Efficient estimation with grouped data (C21)169
P.H. Franses and G. Koop, On the sensitivity of unit root inference to nonlinear data transformations (C22) 7
S. Başçı and A. Zaman, Effects of skewness and kurtosis on model selection criteria (C22) 17
J. Clemente, A. Montañés and M. Reyes, Testing for a unit root in variables with a double change in the mean (C22)175
E. Biørn and T.J. Klette, Panel data with errors-in-variables: essential and redundant orthogonality conditions in GMM-estimation (C23)275
J.-M. Rizzo, The economic determinants of the choice of an exchange rate regime: a probit analysis (C25)283
W.C. Horrace, Submodel estimation of a structural vector error correction model under cointegration (C32) 23
J. Davidson, A Wald test of restrictions on the cointegrating space based on Johansen's estimator (C32)183
A. Hecq, Does seasonal adjustment induce common cycles? (C32)289
N.A. Klevmarken, Preference-based indices with subsidized commodities and income-dependent prices (C43) 31
E. Oczkowski, The impact of market clearing assumptions and dynamics on demand elasticities (C51) 39
S. Shaffer, Information content of forecast errors (C53) 45
F. Fernández-Rodríguez and S. Sosvilla-Rivero, Testing nonlinear forecastability in time series: Theory and evidence from the EMS (C53) 49
M. Besada and C. Váquez, Weakly smooth preferences on Banach lattices (C60) 65
C.E. Weber, A note on Lagrange multipliers with several binding constraints (C61) 71
K.H. Schlag and A. Sela, You play (an action) only once (C72)299
S. Albæk and L. Lambertini, Collusion in differentiated duopolies revisited (C72)305

D Microeconomics

G.C. Morrison, Understanding the disparity between WTP and WTA: endowment effect, substitutability, or imprecise preferences? (D1) 189
K.Z. Chen, The symmetric problem in the linear almost ideal demand system (D1) 309
I. Steedman, Produced input use per unit of output (D20)195
E. Tomiura, Correlation of seasonal variation and nonseasonal variation of production at the establishment level (D24)201
M. Trede, Making mobility visible: a graphical device (D31) 77
L.C. Corchón and M.S. Puy, Individual rationality and voting in cooperative production (D50) 83
W.V. Gehrlein, The probability of a Condorcet winner with a small number of voters (D72)317
J.-M. Courtault and J.-P. Gayant, Local risk aversion in the rank dependent expected utility model: First order versus second order effects (D81)207
D.J. Butler, A choice-rule formulation of intransitive utility theory (D81)323

Elsevier Science S.A.

E Macroeconomics and Monetary Economics

Y. Wen, Indeterminacy, dynamic adjustment costs, and cycles (E00)213
R.J. Torregrosa, On the monotonicity of balanced budget multiplier under imperfect competition (E12)331
K. Fregert, A long-run estimator of the slope of the aggregate demand curve (E30)217
E.V. Pikoulakis and W. Evans, Staggering, the optimal monetary rule and persistence (E32) 91
J.-T. Guo, Indeterminacy and sunspots in a monetary economy with limited participation (E32)337
P.R. Lane, Evolution of the external account under international capital market frictions (E44)347
D.A. Peel and M.P. Taylor, The slope of the yield curve and real economic activity: tracing the transmission mechanism (E44)353

F International Economics

J.R. López-Cálix, Are Pick data on parallel exchange rates misleading? (F3) 223
V.H. Dehejia, Can standards immiserize? (F11)361
D. Willenbockel, Growth effects of anticipated trade liberalization and the Baldwin multiplier (F12)231
M. Hurley, The scope for monetary independence in exchange rate target zones broad and narrow (F31) 97
K.A. Hussein, International capital mobility in OECD countries: The Feldstein–Horioka 'puzzle' revisited (F32)237

G Financial Economics

S. Siddiqui, A qualitative threshold model of daily exchange rate movements (G1) 243
H. Dewachter and D. Veestraeten, Expectation revisions and jumps in asset prices (G12)367
R. Gençay, Optimization of technical trading strategies and the profitability in security markets (G14)249

H Public Economics

S. Chiu, E.C. Mansley and J. Morgan, Choosing the right battlefield for the war on drugs: an irrelevance result (H2) 107
T.J. Goodspeed, On the importance of public choice in migration models (H2) 373

I Health, Education, and Welfare

T. Aronsson, A note on social accounting and unemployment (I31)381
J. Morduch, Poverty, economic growth, and average exit time (I32)385

J Labor and Demographic Economics

B.T. Ewing, Athletes and work (J0) 113
J. Robst and L. Turcotte, The effect of regulatory legislation on workers' earnings (J3) 255
C. Campbell and J.M. Orszag, A model of the wage curve (J30)119
R.F. Elliott and R. Sandy, Adam Smith may have been right after all: A new approach to the analysis of compensating differentials (J32)127
S. Ringuedé, An efficiency wage model for small firms: firm size and wages (J41)263

L Industrial Organization

S. Ziss, Divisionalization and product differentiation (L10)133
A. Nevo, Identification of the oligopoly solution concept in a differentiated-products industry (L13)391
S. Albæk and C. Schultz, On the relative advantage of cooperatives (L22)397

O Economic Development, Technological Change, and Growth

P. Bose, Personalized transactions and market activity in the informal sector (O12)139

Q Agricultural and Natural Resource Economics

M.E. Kahn, A household level environmental Kuznets curve (Q25)269
